Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

00 Cheese Auto / 00 Seeds. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

00 Cheese Auto retains the catalogue's alternative word order to the breeder's Auto 00 Cheese. The breeder presents it as an automatic version of 00 Cheese, highlighting aged-cheese character and elongated resinous flowers. [S1]

The relationship to 00 Cheese is documented, but the full cross is not disclosed on the official page. No specific automatic parent is therefore added, and this line is not equated with its photoperiod counterpart.

History and origin

Automatic version of 00 Cheese identified by 00 Seeds. [S1]

Recorded lineage

Autoflowering version of 00 Cheese; full formula undisclosed [S1]. Parentage attributed to the source, not independently validated genetics.
