00 Kush is a mostly-indica 00 Seeds Bank line with attributed Northern Californian origins. [S1]

# Identity, history and description

Attributions are separate from verified information. The material is not certified.

## Identity

00 Kush / 00 Seeds Bank. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

## Description

00 Kush is described as a combination of indica genetics originating in Northern California. The breeder account mentions dense resinous flowers with citrus character and sweet nuances. [S1]

SeedFinder labels the OG Kush relationship as probable. It is therefore retained as an ancestry hypothesis, not a confirmed parent. This does not identify a specific cut or make the line equivalent to every other variety called Kush.

## History and origin

Attributed Northern Californian origin; creation date undocumented. [S1]

## Recorded lineage

Probable ancestry: OG Kush [S1]. Parentage attributed to the source, not independently validated genetics.
