Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

00 Kush Auto / 00 Seeds. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

00 Kush Auto is the autoflowering version of 00 Kush according to the official record. The breeder describes large resin-coated flowers and an exotic aromatic character without identifying individual notes. [S1]

The reference to 00 Kush establishes the source line, not the full parental formula. Neither the photoperiod line's reported aromas nor its proposed OG Kush ancestry are automatically transferred to this version.

History and origin

Automatic version of 00 Kush identified by the breeder. [S1]

Recorded lineage

Autoflowering version of 00 Kush; full formula undisclosed [S1]. Parentage attributed to the source, not independently validated genetics.
