Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

00 Kush Fast / 00 Seeds Bank. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

00 Kush Fast appears in the official 00 Seeds catalogue. SeedFinder places it in the mostly indica category and records a selection from OG Kush × OG Kush. This ancestry is a secondary database attribution; the breeder's page does not explain it. [S1][S2]

The consulted documentation specifies neither aromas nor floral traits. The Fast name alone establishes neither a parental formula nor autoflowering status.

History and origin

Selection attributed by SeedFinder; detailed breeding history unavailable. [S1]
