Medical Seeds Co.

BLOCK 003 / 100 - REVIEW PENDING

Provisional artwork B-S2; no human approval

A Medical Seeds cultivar with undisclosed ancestry and varied sensory expression. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

1024 / Medical Seeds Co.. Name and breeder retained from the supplied catalogue; they do not authenticate a physical sample.

Description

1024 is a feminized, sativa-dominant cultivar whose official catalogue keeps its genealogy secret. The description combines sweet, musky, spicy and fruity references and distinguishes a more acidic phenotype with incense nuances. This variation belongs to the breeder's description, not to a chemical analysis or an inferable parental formula. [S1]

History and origin

The Medical Seeds catalogue documents the name and explicitly withholds its ancestry. [S1]

Recorded lineage

Undisclosed ancestry. No genealogy is established from the available references.

Technical record and evidence

Field	Current record
Name	1024
Breeder / seed bank	Medical Seeds Co.
Recorded type	Sativa-dominant hybrid; feminized seeds. [S1]
Lineage	Undisclosed ancestry
Cut	Not documented
THC / CBD	Not documented
Terpenes	Not documented
HHH sample	Not supplied

Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

Recorded lineage

Sensory profile and documentation

Sensory profile

Sweet, musky, spicy and fruity; a more acidic phenotype with incense, according to the breeder. [S1]

Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
