Provisional artwork B-S1; no human approval

1973 Durban belongs to Hippie Cannabis Genetics. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

1973 Durban / Hippie Cannabis Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

The breeder account traces the material to Durban Pencils collected in 1973. It describes tall branching plants, moderate internodes and spicy, earthy, anise notes. The tree links it to Durban Poison without establishing equivalence with current commercial versions. [S1]

History and origin

Historical provenance attributed to Durban Pencils. [S1]

Recorded lineage

Derived from Durban Pencils material attributed to 1973 [S1]. Parentage attributed to the source, not independently validated genetics.
