# Identity, history and description

Attributions are separate from verified information. The material is not certified.

## Identity

1997 / Silberhaze Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

## Description

Despite its name, the breeder account places the project's beginning in 2017. A Loja female was crossed with the male called bullfrog from the 2015 Hong Kong collection; the offspring are described as F1. [S1]

The entry classifies it as a regular indica/sativa hybrid. It provides neither specific aromatic notes nor a distinctive description of flower morphology. [S1]

## History and origin

Project begun in 2017 in the reproduced account; 1997 is the catalogue name. [S1]

## Recorded lineage

Loja × Legacy VT Hong Kong (2015) [S1]. Parentage attributed to the source, not independently validated genetics.
