Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

24K Banana / Utopia Farms. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

SeedFinder records this identity as mostly sativa and regular-seeded. Its tree explicitly marks the relationship with 24k and C. Banana as probable; that qualification is retained rather than presenting a cross confirmed by Utopia Farms. [S1]

The consulted entry does not describe a distinctive aroma or morphology. Banana in the name does not establish banana scent or justify transferring traits from the proposed parent lines. [S1]

History and origin

Utopia Farms entry; selection history and origin date undocumented. [S1]

Recorded lineage

Probable ancestry: 24k × C. Banana [S1]. Parentage attributed to the source, not independently validated genetics.
