BLOCK 004 / 100 - REVIEW PENDING

Provisional artwork A-S1; no human approval

A The Agrarian Society entry with conflicting published parentage.

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

3.6 Roentgen / The Agrarian Society. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

SeedFinder connects 3.6 Roentgen with the Space Race collection and a collaboration with Cutthroat Cultivars. Its description names Rabbit Hole as pollen donor, whereas its tree shows MAC 1 × Rabbit Run. This discrepancy is retained without assuming the two names are aliases. The promotional text's polyploidy claim is not independently validated here.

History and origin

The consulted reference does not document the creation date or a specific selection.

Recorded lineage

MAC 1 × disputed parent: Rabbit Hole in the text / Rabbit Run in the tree [S1]. Parentage attributed to the source, not independently validated genetics.
