Identity, history and description

Identity

303 Stooges / Dark Horse Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

SeedFinder attributes 303 Stooges to Strawberry Cough, Kyle Kushman's selection, × Landos Stash and classifies it as mostly indica. The breeder description highlights variation among F1 phenotypes, so uniform expression is not assumed. Strawberry aroma is not inferred solely from a parent's name.

History and origin

The consulted reference does not document the creation date or a specific selection.
