Provisional artwork A-S1; no human approval

An Antenna Seeds cross with Third Dimension mother and unidentified father.

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

3DG13 / Antenna Seeds. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

The breeder account reproduced by SeedFinder identifies a TGA Third Dimension female. It states that the father came from a falsely sourced pack labeled G13 × Sativa and that its actual identity is unknown. That label is therefore not validated as genealogy even though the tree repeats it. Potency is not confirmed by analytical data either.

History and origin

The consulted reference does not document the creation date or a specific selection.

Recorded lineage

Third Dimension (TGA) × unknown father [S1]. Parentage attributed to the source, not independently validated genetics.
