Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

4Chata / Wyeast Farms. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Wyeast Farms' 4Chata is presented as a feminized line derived from Chem 4 and Horchata. The reference does not specify an indica or sativa classification for this entry. It also does not document a particular aroma profile: Horchata's name cannot automatically establish beverage-like aromas in its offspring.
