

HI HOLY HIGH

517 Durban Poison

Pure Michigan Genetics

BLOCK 004 / 100 - REVIEW PENDING

Provisional artwork A-S1; no human approval

Local selection of Durban Poison × Durban Poison.

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

517 Durban Poison / Pure Michigan Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Pure Michigan Genetics' 517 Durban Poison reportedly derives from a female and male selected from regular Durban Poison seeds and crossed in Michigan. It is presented as a sativa-leaning line. The source does not establish a filial generation or justify geographic purity based on the name.

History and origin

The consulted reference does not document the creation date or a specific selection.

Recorded lineage

Durban Poison × Durban Poison [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	517 Durban Poison
Breeder / seed bank	Pure Michigan Genetics
