Provisional artwork A-S1; no human approval

MI-Headband × Poison Kush.

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

517 Headband / Pure Michigan Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Pure Michigan Genetics' 517 Headband is described as a MI-Headband selection crossed with Poison Kush, in regular seeds and classified as a hybrid. The narrative and tree agree on that local selection; an abbreviated line calls the mother 517 Headband. This naming ambiguity is retained without inventing another cross.

History and origin

The consulted reference does not document the creation date or a specific selection.

Recorded lineage

MI-Headband × Poison Kush [S1]. Parentage attributed to the source, not independently validated genetics.
