Identity

'78 Skunk 'M' x Gorilla Grape / TCVG Shit. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

'78 Skunk 'M' x Gorilla Grape is the recorded cross between Marsha and Kong. Marsha was selection M from the '78 Skunk material obtained from OhSoGreen, considered by the breeder to be the closest expression to a Skunk #1 type within that selection. Kong is the Gorilla Grape male used in this project. [S1]

The letter M is not decorative: it identifies a mother distinct from Deanna, used in the D variant. The source records an indica/sativa hybrid and an F1 generation. Although the project sought improved flavour, the consulted entry lacks a sufficiently specific sensory account of the offspring. Observations of Marsha's size or appearance should likewise not be turned into guarantees for the entire line.

History and origin

The documented history links mother Marsha to OhSoGreen's '78 Skunk and father Kong to Outlaw Genetics' Gorilla Grape. The release date is not established. [S1]

Recorded lineage

'78 Skunk 'M' (Marsha) x Gorilla Grape (Kong) [S1]. Parentage attributed to the source, not independently validated genetics.
