Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

'87 Firebird / Bred By Woses. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Woses places '87 Firebird in a collaboration with TheGanj86 and describes it as Platinum Lemon Cherry Gelato × '87 Limepop. The account mentions resinous flowers, lime and lemon notes, a skunk and cheese background, and possible silver, pink or purple hues. These are breeder attributions, not observations of an HHH specimen. [S1]

The documentation contains a significant discrepancy: the tree on the same page replaces the first parent with Thin Mint GSC × Lemon Haze. This record retains the breeder's written formulation without resolving that difference by assumption. The number in the name does not establish a release date either.

History and origin

Project attributed to Woses and TheGanj86. A release date is not established. [S1]

Recorded lineage

Platinum Lemon Cherry Gelato × '87 Limepop [S1]. Parentage attributed to the source, not independently validated genetics.
