Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

'89 NL5 x Sour OG / Green Bodhi. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

'89 NL5 x Sour OG combines two parents explicitly identified by Green Bodhi: '89 Northern Lights #5 and Sour OG. The breeder attributes sour fuel aromatics, short internodes and dense, resinous flowers to the offspring. Compactness is described relative to typical Sour OG expressions, not as an absolute measurement. [S1]

The name retains the '89 designation of the Northern Lights #5 parent; it does not establish that the complete cross was released in 1989. Its hybrid classification does not establish ancestry percentages either. Without an identified specimen and analysis, these traits remain a documentary profile rather than a guarantee for every plant.

History and origin

Green Bodhi links this cross to the '89 Northern Lights #5 selection. No release date for the hybrid is established. [S1]

Recorded lineage

'89 Northern Lights #5 x Sour OG [S1]. Parentage attributed to the source, not independently validated genetics.
