

HI HOLY HIGH**'97 SAGE**

The Bank Genetics

BLOCK 002 / 30 - REVIEW PENDING

Provisional artwork B-S2; no human approval

A The Bank Genetics hybrid combining Fall '97 and S.A.G.E.; the breeder highlights a distinctive smell and possible purple coloration. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

'97 SAGE / The Bank Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

'97 SAGE belongs to The Bank Genetics' catalogue and is documented as Fall '97 × S.A.G.E. Its varietal account mentions moderately dense flowers and possible purple hues. The smell is described as distinctive, but the source supplies no specific notes supporting a citrus, sweet or herbal characterization. [S1]

Part of the account lists desired parental traits. Those selection aims should be distinguished from characteristics established throughout the offspring. The SAGE designation does not demonstrate a sage aroma either. This record identifies the complete cross, not S.A.G.E. on its own or any unrelated selection called '97.

History and origin

Cross attributed to The Bank Genetics; Fall '97 is the mother and S.A.G.E. the pollen donor. [S1]

Recorded lineage

Fall '97 × S.A.G.E. [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	'97 SAGE
Breeder / seed bank	The Bank Genetics
Recorded type	Indica/sativa hybrid [S1]
Lineage	Fall '97 × S.A.G.E.
Cut	Not documented
THC / CBD	Not documented
Terpenes	Not documented
HHH sample	Not supplied

Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

Recorded lineage

'97 SAGE -> Fall '97 [S1] (REPORTED)

'97 SAGE -> S.A.G.E. [S1] (REPORTED)

Sensory profile and documentation

Sensory profile

Described as distinctive, without documented specific aromatic notes. [S1]

Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
