

HI HOLY HIGH

Afghani OG

Apothecary Genetics

BLOCK 009 / 300 - REVIEW PENDING

Provisional artwork A-S1; no human approval

Afghani OG, attributed to Apothecary Genetics. Indica according to the source.

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

Afghani OG / Apothecary Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Afghani OG, attributed to Apothecary Genetics. Partial ancestry: Afghani × OG. [S1]

History and origin

Apothecary credits King of Nepal and names an OG male. The tree specifies Joe's OG Kush, a detail not confirmed in the original description. [S1]

Recorded lineage

Partial ancestry: Afghani × OG [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	Afghani OG
Breeder / seed bank	Apothecary Genetics
Recorded type	Indica according to the source
Lineage	Partial ancestry: Afghani × OG
Cut	Not documented
THC / CBD	Not documented
