Identity, history and description

Identity

AK-107 / 710 Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

AK-107 is an entry attributed to 710 Genetics. Indica/sativa hybrid. Partial ancestry: AK47 × Unidentified elite UK clone. [S1]

No specific aromatic notes are documented for this entry.

History and origin

710 Genetics declares AK47 crossed with an elite UK clone whose name is not published. That missing name is a real pedigree limit: the number 107 does not identify the second parent on its own. [S1]

Recorded lineage

Partial ancestry: AK47 × Unidentified elite UK clone [S1]. Parentage attributed to the source, not independently validated genetics.
