Identity

Amnesia Sativa / Underground Seeds Collective. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Underground Seeds Collective describes Amnesia Sativa as an Amnesia Hy-Pro IBL. It states that two parents with the line's most sativa-leaning traits were selected. The profile records that specific selection and fruity aromas without independently certifying inbreeding level or automatically equating it with every Amnesia. [S1]
