Animorph Mints

Compound Genetics

BLOCK 014 / 100 - REVIEW PENDING
Provisional artwork A-S1; no human approval

Animorph Mints belongs to the catalogue of Compound Genetics. Feminized hybrid. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

Animorph Mints / Compound Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Compound lists Animorph Mints as Animal Mints crossed with The Menthol. The reference describes a medium-sized plant and a profile combining Kush, fuel, cream and mint. These are descriptive notes, not measurements of its aromatic composition. [S1]

History and origin

Animorph Mints belongs to the catalogue of Compound Genetics. Compound lists Animorph Mints as Animal Mints crossed with The Menthol. The reference describes a medium-sized plant and a profile combining Kush, fuel, cream and mint. These are descriptive notes, not measurements of its aromatic composition. [S1]

Recorded lineage

Animal Mints × The Menthol [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	Animorph Mints
Breeder / seed bank	Compound Genetics
Recorded type	Feminized hybrid
Lineage	Animal Mints × The Menthol
Cut	Not documented
THC / CBD	Not documented
Terpenes	Not documented
HHH sample	Not supplied

Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

Recorded lineage

Animorph Mints -> Animal Mints [S1] (documented)

Animorph Mints -> The Menthol [S1] (documented)

Sensory profile and documentation

Sensory profile

The source describes notes of Kush, fuel, cream, mint. [S1]

Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
Catálogo!row:1720.

Animorph Mints | Hi Holy High

Documented identity, history and lineage: Compound Genetics.

DankAdvice

A name provides a clue; traceability establishes identity. Keep breeder, ancestry and provenance together without filling gaps with assumptions.

Notices

Conceptual illustrations, not photographs of an authenticated specimen. Informational document for adults, without medical claims or potency guarantees. Unpublished.

Sources

Consultation dates are listed with each reference. References retain the attribution of each claim.
