Identity

Aurora Borealis / Mogwai Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Mogwai Genetics attributes Aurora Borealis to Blue Cookies × Alien Life Form. The record classifies it as indica-dominant and lists regular seeds. This parentage distinguishes the Mogwai entry from other cultivars sharing the name; a Northern Lights lineage is not assigned merely because of that homonym. [S1]
