Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

Badakhshan / The Landrace Team. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

The Landrace Team places Badakhshan in a northeastern Afghan population. It describes broad serrated leaves, a conical structure and expressions ranging from yellow to dark purple. Burnt-fat, rubber, cheese and lavender notes are attributed; this is population provenance, not an identified modern cross. [S1]
