

HI HOLY HIGH

Baghlan Hashplant

Khalifa Genetics

BLOCK 025 / 100 - REVIEW PENDING

Provisional artwork A-S1; no human approval

Baghlan Hashplant belongs to the catalogue of Khalifa Genetics. Traditional Afghan indica-type population. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

Baghlan Hashplant / Khalifa Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

Khalifa Genetics places Baghlan Hashplant in a traditional population from a Hindu Kush village in Baghlan. The account links it to a local history of hash production and describes very dark red pigmentation. It identifies neither a modern parental cross nor a detailed aroma profile. [S1]

History and origin

Baghlan Hashplant belongs to the catalogue of Khalifa Genetics. Khalifa Genetics places Baghlan Hashplant in a traditional population from a Hindu Kush village in Baghlan. The account links it to a local history of hash production and describes very dark red pigmentation. It identifies neither a modern parental cross nor a detailed aroma profile. [S1]

Recorded lineage

Population provenance: Baghlan population, northern Afghanistan [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence
