Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

Bananaquin / Dankonomics Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

SeedFinder records Bananaquin under Dankonomics Genetics. The recorded ancestry includes Harlequin x Banana Kush F9. Dankonomics Genetics attributes the cross to a Harlequin clone and an OrgnKid-associated Banana Kush F9; the tree marks the latter identification probable. The description mentions banana peel, licorice and a synthetic nuance, without treating them as chemical measurements. [S1]
