Identity

Banners Florida Vacation / Turn It Up Genetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

SeedFinder attributes Banners Florida Vacation to Turn It Up Genetics. Its tree records (Bruce Banner 3 x Unknown Ruderalis) x St.Pete Funk: the grouping distinguishes the compound first parent from the second. The description presents a breeding project focused on early flowering, without a chronology. The same tree identifies St.Pete Funk as an F2 of Cereal Milk x King Bubba F3. The ruderalis branch remains unidentified; its presence alone does not establish autoflowering behaviour. No variety-specific aroma profile is documented. [S1]
