

HI HOLY HIGH**(CD x C-99) x Purpurea F-2**

Classic Seeds

BLOCK 002 / 30 - REVIEW PENDING

Provisional artwork B-S2; no human approval

A Classic Seeds hybrid joining ChemDawg x C-99 with Purpurea F-2; the F-2 marker belongs to that parental branch. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

(CD x C-99) x Purpurea F-2 / Classic Seeds. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

(CD x C-99) x Purpurea F-2 combines a first ChemDawg x C-99 branch with the parent named Purpurea F-2. The source links the latter to Purpurea Ticinensis and classifies the complete cross as an indica/sativa hybrid. The parenthetical structure is retained so that ancestors are not confused with direct parents. [S1]

F-2 forms part of Purpurea's identification in the record; it does not certify the entire cross as a second generation. Available information also does not turn the Purpurea name into a guarantee of purple coloration. A specific aromatic profile and detailed morphology for this cross are not supplied, so those characteristics remain undetermined.

History and origin

A Classic Seeds entry with a Purpurea branch linked by the database to Purpurea Ticinensis. No creation date or HHH specimen is documented. [S1]

Recorded lineage

(ChemDawg x C-99) x Purpurea F-2 [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	(CD x C-99) x Purpurea F-2
Breeder / seed bank	Classic Seeds
Recorded type	Indica/sativa hybrid, with no documented ratio [S1]
Lineage	(ChemDawg x C-99) x Purpurea F-2
Cut	Not documented
THC / CBD	Not documented
Terpenes	Not documented
HHH sample	Not supplied

Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

Recorded lineage

(CD x C-99) x Purpurea F-2 -> (ChemDawg x C-99) [S1] (REPORTED)

(CD x C-99) x Purpurea F-2 -> Purpurea F-2 [S1] (REPORTED)

Sensory profile and documentation

Sensory profile

A specific aromatic profile is not documented in the consulted source. [S1]

Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
Catálogo!row:18.
