Magic Herbs

BLOCK 002 / 30 - REVIEW PENDING

Provisional artwork B-S2; no human approval

A Magic Herbs entry with branches identified as F3 and F2, and reported lemon, fruit and minty hash notes. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

(G13 Hashplant x Chitral) F3 x Taskenti F2 / Magic Herbs. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

(G13 Hashplant x Chitral) F3 x Taskenti F2 brings together two genealogical branches with different identifiers. The first combines G13 Hashplant and Chitral and carries the F3 marker; the second is identified as Taskenti F2. Magic Herbs is credited as breeder, and the catalogue places it among predominantly indica varieties. [S1]

The attributed breeder description mentions lemon and fruit against a minty hash background. This is a qualitative aromatic account, not a terpene analysis. There is also an important documentary qualification: the source's tree marks Chitral as probable. That uncertainty is retained, while F3/F2 remain attached to their respective branches rather than assigning a single generation to the complete cross.

History and origin

A record attributed to Magic Herbs. The name retains parental generations but supplies neither a creation date nor authentication of an HHH sample. [S1]

Recorded lineage

(G13 Hashplant × Chitral [probable in the tree]) F3 × Taskenti F2 [S1]. Parentage attributed to the source, not independently validated genetics.

Technical record and evidence

Field	Current record
Name	(G13 Hashplant x Chitral) F3 x Taskenti F2
Breeder / seed bank	Magic Herbs
Recorded type	Mostly indica according to the catalogue; ratio not documented [S1]
Lineage	(G13 Hashplant x Chitral [probable in the tree]) F3 x Taskenti F2
Cut	Not documented
THC / CBD	Not documented
Terpenes	Not documented
HHH sample	Not supplied

Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

Recorded lineage

(G13 Hashplant x Chitral) F3 x Taskenti F2 -> (G13 Hashplant x Chitral) F3 [S1] (REPORTED)

(G13 Hashplant x Chitral) F3 x Taskenti F2 -> Taskenti F2 [S1] (REPORTED)

Sensory profile and documentation

Sensory profile

Lemon and fruit with a minty hash background, according to the attributed breeder account. Not a chemical measurement. [S1]

Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
