Identity

(HOG/Blue Moon Rocks) x Blue Moon Rocks / Off Grid Seed Co.. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

(HOG/Blue Moon Rocks) x Blue Moon Rocks retains a HOG x Blue Moon Rocks branch and connects it again with Blue Moon Rocks. The catalogue tree identifies HOG as The Hog and adds the Bx1 designation. This is the Off Grid Seed Co. entry, classified as an indica/sativa hybrid without a published ratio. [S1]

The attributed breeder description emphasises variation between expressions: sweetness is frequent, with sweet-garlic comparisons and a soapy background in some. These notes are neither a chemical profile nor a guarantee for every specimen. The broader ancestor list accompanying the text is not converted into four direct parents: the tree's grouped structure is retained, without inferring uniformity from the Bx1 label.
