# (PyDog ix1 x White OG V2) x Deep Chunk

B. Seeds Co.

BLOCK 002 / 30 - REVIEW PENDING

Provisional artwork B-S2; no human approval

A mostly-indica B. Seeds Co. entry bringing together PyDog ix1, White OG V2 and Deep Chunk, with parental selections identified in the source. [S1]

# Identity, history and description

Attributions are separate from verified information. The material is not certified.

## Identity

(PyDog ix1 x White OG V2) x Deep Chunk / B. Seeds Co.. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

## Description

(PyDog ix1 x White OG V2) x Deep Chunk combines a maternal branch identified as selection #1.1 of PyDog ix1 x White OG V2 with Deep Chunk #17. B. Seeds Co. attributes White OG V2 to Karma Genetics and the selection of that parent to Rafa of OlaDog Seeds. The catalogue classifies the entry as mostly indica without supplying a measured ratio. [S1]

The description's creamy and bitter comparisons concern the maternal selection. For the descendants, the breeder anticipates possible variation rather than documenting an already verified uniform profile. Those references therefore remain parental context, not sensory promises for every specimen. The identifiers ix1, V2 and #17 retain their respective places in the genealogy and do not authenticate an HHH sample.

## History and origin

B. Seeds Co. record referencing Karma Genetics and Rafa of OlaDog Seeds in the White OG V2 branch. Creation date undocumented. [S1]

## Recorded lineage

(PyDog ix1 x White OG V2) #1.1 x Deep Chunk #17 [S1]. Parentage attributed to the source, not independently validated genetics.

## Technical record and evidence

| Field               | Current record                                  |

| Cut                 | Not documented                                  |
| THC / CBD           | Not documented                                  |
| Terpenes            | Not documented                                  |
| HHH sample          | Not supplied                                    |

### Evidence review

Catalogue attributions and breeder statements are not laboratory findings. No identified HHH specimen or analytical certificate linked to it has been supplied.

### Recorded lineage

(PyDog ix1 x White OG V2) x Deep Chunk -> (PyDog ix1 x White OG V2) #1.1 [S1] (REPORTED)

(PyDog ix1 x White OG V2) x Deep Chunk -> Deep Chunk #17 [S1] (REPORTED)

# Sensory profile and documentation

## Sensory profile

Creamy and bitter comparisons attributed to mother #1.1; uniform descendant profile unconfirmed. [S1]

## Terpenes

No terpene analysis of an identified sample is available. Reported aromatic notes do not establish compounds or percentages.

## Documentary scope

Varietal identity and history record. It contains no production instructions or consumption recommendations.

## Documentary record

Catalogue record; it does not establish stock, specimen provenance or commercial availability.
