Identity, history and description

Identity

(Sticky Dog x Zkitllez) X Larry OG / Tramuntana Seeds. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

(Sticky Dog x Zkitllez) X Larry OG combines a compound first branch with the line the catalogue calls Larry OG. Sticky Dog and Zkitllez retain the spelling used for this Tramuntana Seeds entry rather than being replaced with similarly named varieties. The source presents an indica/sativa hybrid without specifying a ratio. [S1]

Its description combines fruit and flowers with an earthy background and fuel-like comparisons; resin is also mentioned. The linked genealogy, however, leaves Sticky Dog's identity unresolved and marks Larry OG as probable. Those reservations belong in the record: neither the name nor the aromatic account establishes a particular cut or the composition of an HHH specimen.

History and origin

Entry attributed to Tramuntana Seeds; creation date undocumented. The published formula and linked tree provide different levels of detail. [S1]

Recorded lineage

(Sticky Dog × Zkitllez) × Larry OG; Sticky Dog identity unresolved, Larry OG probable in tree [S1]. Parentage attributed to the source, not independently validated genetics.
