Tea Time

Wizard Trees · Zkittlez x RS11

Wizard Trees Tea Time: Zkittlez x RS11 in a Z-candy and sherbet lane.

Conceptual illustrations, not photographs of authenticated specimens. No medical claims or potency or availability guarantees.

Description

Tea Time is documented as a Zkittlez x RS11 cross. Wizard Trees Genetics and SeedFinder align on that identity, with public copy centered on Z-style candy, fruit and RS11-linked flower structure. The Atlas keeps that genealogy while avoiding the conversion of commercial descriptors into analytical data.

Tea Time stands as one of Wizard Trees' recognizable cuts and appears as a parent in later crosses including Tea Party and Tea Tree. That use as a base line confirms its role in the breeder's recent architecture.

Quick facts

Name	Tea Time
Breeder / seed bank	Wizard Trees
Aliases	Tea TIme, Tea Time Wizard Treez
Recorded type	Feminized hybrid / breeder cut context
Lineage	Zkittlez x RS11
Cut	Not authenticated through an HHH sample
THC / CBD	Not documented as an HHH value
Terpenes	No HHH analysis

The dossier separates documented data, commercial context and sensory reading. No HHH sample or laboratory analysis linked to these entries has been supplied.

Sensory

Z candy, sweet fruit and creamy sherbet are the source-described anchors. Without an HHH analysis, they remain orientative sensory notes.

Terpenes

No measured terpenes are assigned. Source aroma notes are orientative and do not establish chemical composition.
