Provisional artwork B-S2; no human approval

A CHAnetics cross linked to Humboldt County, with cherry, honey, creamy grape and citrus aromatic references. [S1]

Identity, history and description

Attributions are separate from verified information. The material is not certified.

Identity

(Trop Cherry x Honey Bananas) x Frenchy's Grapes / CHAnetics. The identity described here refers to the combination of name and breeder in the source, not to authentication of a physical sample.

Description

(Trop Cherry x Honey Bananas) x Frenchy's Grapes joins the compound first branch with Frenchy's Grapes in work CHAnetics locates in Humboldt County alongside the Cannabis Horticultural Association. The catalogue describes an indica tendency and proposes approximately 60/40: a breeder attribution rather than a ratio measured in an HHH sample. [S1]

The aromatic account combines cherry and honey, grape with a creamy note, and citrus references; resin is also mentioned. Frenchy's Grapes contributes a broader genealogy, but some distant tree links, including Papaya, are marked probable. The advertised THC range of 20-25% lacks an associated certificate here. It is retained as catalogue information, not a guarantee of composition, potency or uniformity.

History and origin

CHAnetics attributes development to Humboldt County and a collaboration with the Cannabis Horticultural Association. Creation date undocumented. [S1]

Recorded lineage

(Trop Cherry x Honey Bananas) x Frenchy's Grapes [S1]. Parentage attributed to the source, not independently validated genetics.
